

God the Creator King Notes

Everyone loves a story & they are easy to tell. In this series you will have 4 “**evangelistic narrative**” lessons. So what does that mean when you are preparing a lesson? You will be telling a story! But don’t forget to include the gospel all through the story! It is vital for the children to understand. In **Lesson 2** you will have an “**evangelistic doctrinal**” lesson....**not** just the story of creation, but of the Creator—who is strong and powerful enough to make the world, and personal enough to know each of them. So you & I need to think differently when we prepare this lesson.

We need to get the “big picture” of this series to start with. Many children do not know the basics of who God is, of creation and the fall, and yet these truths are necessary to make the whole story of redemption come alive. The children will see where they fit into this Big Story as you apply each lesson to their lives.
